GREEN ACRES

Condominiums
in Arlington Heights

Owning a Green Acres condominium, while offering a gracious, carefree way of life, is a thoroughly sound and economical investment. In building equity in a condominium home, you enjoy considerable tax advantages. Economies are realized in that the monthly expenditure is 15 to 30% less than it would be for a comparable apartment rental. And you are automatically a member of the Owners Association, which allows you to govern and control the operation of your property, common area and facilities. There is no mutual financial risk. You may purchase for cash or obtain mortgage financing tailored to satisfy your needs and desires from Arlington Heights Federal Savings & Loan Association.

Charles G. Matthies, Inc. currently has over $10 million in condominium construction in the Chicagoland area. And because the firm is a leader in the condominium field it can offer greater values to the purchaser. Charles G. Matthies built the first condominium in Illinois following the passage of the Condominium Property Act on July 1, 1963. With a reputation for fine construction and individual service, Charles G. Matthies has added Green Acres to its list of fine condominium accomplishments.
